### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title was amended to read as follows:

~~Deinking blends for use in reduced alkali systems~~ **Method of Deinking Waste Paper using a Reduced Alkali System**

### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the primary reason for allowance is that the cited prior art fails to disclose or reasonably suggest a method of deinking waste paper by contacting a pulp slurry having a pH from about 6.0 to about 8.8 with a fatty alcohol having an HLB of at least 13 and a first fatty acid having the claimed wt % as recited in claim 1 and 60 or a deinking composition having the claimed fatty alcohol HLB and fatty acid as recited in claim 70.

The cited prior such as Miyauchi only suggest the use of a fatty acid having an HLB range of 2 to 12 but does not suggest or disclose an HLB greater than 13 as instantly claimed.

Additionally, Applicant's argument regarding unexpected results have been found persuasive.

Art Unit: 1731

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
